

Manifold Blocks

Sheet 8760-1

8351A-T Transmitter with
8760-D Manifold Block mounted.

8760 Manifold Blocks allow in-line calibration of transmitters, such as:

8351A-T Transmitter from the EPIC® II furnace pressure controller.
8245 Differential Pressure Transmitter.

The Manifold Block, which mounts directly to the transmitter, facilitates piping, with either a 3-valve (-C) or 5-valve (-D) arrangement.

Order by complete designation, which will include mounting hardware, e.g.:

8760-C Manifold Block.
