For all Compressor Parts refer to Renewal Parts Form 180.15-RP1

Compressors are bare, with discharge manifold, stop valves, oil charge and crankcase heater, less base. Compressor part numbers shown are for compressors with suction pressure actuated capacity control. Compressors used on LCHH model chillers are equipped with temperature actuated capacity control. For replacement, order compressor listed above and use power assembly from original compressor or order new power assembly (part number 025-09981).
